Journal of Occupational Medicine
Vol. 31, January – December 1989

INDEX TO PAGES

According to monthly issues January – December

Pages	Month	Pages	Month
1–64	January	577–640	July
65–210	February	641–722	August
213–290	March	723–808	September
291–418	April	811–876	October
419–498	May	877–945	November
499–576	June	947–1032	December

SUBJECT INDEX

A

Abortion
  spontaneous
    prospective studies, evaluation of recruitment strategies, 980
    risk, paternal military service in Viet Nam, 618
    semiconductor industry (letters), 200, 280
Acrylamide, mortality patterns among exposed workers, 614
Acrylonitrile, mortality patterns among exposed employees, 368
Agent Orange, spontaneous abortion risk and, 618
Agricultural workers, variant of mass psychogenic illness among, 331
Air, contamination, threshold limit values, 910
Aircraft pilot, incidentally detected illness, incapacitation risk, 513
Airway, hypersensitivity, psyllium-associated, nurse, 624
Alcohol
  fatal work-related injuries, 23
  withdrawal, seizures during (OM Forum), 888
Allergy
  respiratory, reactive dye-associated, wool workers, 857
  to laboratory animals, prospective and cross-sectional study, 842
American College of Occupational Medicine
  abstracts of annual meeting, 373
  fall state-of-the-art conference
    information and schedule, 702
    presidential welcome, 701
  new members listing, 570
  Noise and Hearing Conservation committee, position statement, 996
  proposed bylaws amendments, 372
American Occupational Health Conference, program schedule, 145
Anaphylactic shock, nonfatal, after ceftriaxone (letter), 490
Anhydride, sensitivity, diagnosis of (letters), 868
Animal handlers, allergy incidence, prospective and cross-sectional study, 842
Anthrometry, overuse injury and, keyboard operators, 747
Asbestos, reading exposure films (OM Forum), 728
Asthma
  baker's, clinical and immunologic evaluation, 439
  chromolyn sodium therapy, hair care industry, 112
  clinical and immunologic evaluation, baker, 439
  pheasant handlers, 473

B

Back
  chronic low back syndrome, strength and conditioning, supervised versus chronic program, 547
  low back pain, sociopolitical constraints on clinical judgment, 823
  nonspecific injury, expenditures for, 919
  radiographic abnormalities, asymptomatic population (OM Forum), 731
  strain/sprain, acute treatment (OM), 421
Backache, disabling, sociopolitical constraints on clinical judgment, 823
Back schools, evaluation (OM Forum), 217
Baker's asthma: *see* Asthma
Beryllium disease, subclinical, identification by screening blood test, 603
Bird handlers, health hazard evaluation, pheasant breeding farm workers, 473
Birth weight, effect of women working in reinforced plastics industry, 115
Black lung disease, federal benefits, cigarette smoking and, coal miners, 98
Blood pressure
  ambulatory monitoring, work site relaxation training program, 595
  work site control program, 354
Blood test, identification of subclinical beryllium disease, 603
Bookbinding worker, headaches, pregnant employee (OM Forum), 422
Book Reviews, 584, 732, 818, 1017
Brain cancer, occupational risk, 863
Burn injury, rates and causes, effects of employment status on, 751
Bus drivers, stress-related illness, predictors of, 657

C

Cancer
  brain, occupational risk, 863
  coal tar epoxy resins and (OM Forum), 582
  colorectal
    assessment of screening outcome, polypropylene workers, 785
    participation, occupational screening program, 458
    screening, compliance in high-risk group, 1007
  incidence, dimethylformamide-exposed workers, 432
  mortality
    acrylonitrile exposure, 368
    dye and resin plant, follow-up study, 273
    nonwhite men, meat industry, 270
    rate, Louisiana chemical workers, 32
    update, higher chlorinated dioxin exposure, 121
    vinyl chloride-exposed workers, cohort and case-control analyses, 518
  mortality patterns
    acrylamide-exposed workers, 614
    methyl methacrylate exposure and, 41
    pulp and paper workers, 627
  nasal, wood workers (letters), 939
  occupational screening (OM Forum), 202
  screening program, colorectal cancer, compliance, high-risk group, 1007
  sinonasal, woodworkers, North America, 899
  workplace screening and awareness program, comparison, participants and nonparticipants, 221
  work-related, incidence (OM Forum), 8
Cancerphobia, mental distress claims, 427
Carpal tunnel syndrome, hand preference and, 17
Carpenter, injury frequency and severity, 687
Ceftriaxone, nonfatal anaphylactic shock after (letter), 490
Cement dust, pulmonary alveolar proteinosis and, case report, 233

Central nervous system, abnormalities, after short-term hydrocarbon exposure, 51
Chemicals
fetotoxic damage after exposure to, bookbinding employee (OM Forum), 422
hazardous, public information, 528
mortality experience, 32
personality disturbances, after exposure to organic solvents, 743
Chest radiograph, variability in 'B' readings, public health implications, 775
Chloracne, after chlorinated dioxin exposure, chemical workers, 771
Chloromethyl ether, lung cancer due to, chemical workers, 102
Chromate workers, nasal septum perforation (letter), 1013
Chromolyn sodium, inhaled, management of occupational asthma, 112
Chromosome, aberrations, peripheral blood lymphocytes, welders, 477
Chronic disease, National Health Interview Survey, "latest" versus "usual" occupation, 339
Cigarette smoking, coal minors, federal black lung benefits and, 98
Clinical ecology, workplace, retrospective review, 257
Coal tar epoxy resin, cancer and (OM Forum), 582
Conditioning program, supervised versus independent, chronic low back syndrome, 547
Conjunctivitis, infectious, microscope transmission, 758, 763
Construction painters, sensory thresholds, new measuring methods, 320

D

Dermatitis, occupational contact, epoxy resin-associated, 87
Dialysis, peritoneal, in the workplace (OM Forum), 217
Diet, employer intervention, experimental study, 90
Dimethylacetamide, biologic monitoring, air exposure-urinary excretion relationship, 47
Dimethylformamide, cancer incidence in exposed workers, case-control study, 432
Dimethyl sulfate, poisoning, lung injury, 141
Dioxin
chlorinated
chloracne incidence, chemical workers exposed to, 771
mortality update, 121
Diphenylmethane diisocyanate, hypersensitivity pneumonitis, serologic evaluation, 315
Disability, benefit application and awards, occupational differences, 358
Disease: *see also* Illness
scientific criteria of causation, toxic tort litigation, 997
Drugs
fatal work-related injuries and, 23
narcotic, therapeutic, appropriate use in workplace (OM Forum), 583
Dye and resin workers, follow-up study, 273
Dyspnea, pleural plaques and (letters), 55

E

Editorial
Did formaldehyde cause lung cancer?, 885
Human immunodeficiency virus and the health care worker, 535
Prevention of occupational deafness: a coming crisis?, 139
To weight or not to weight . . . that is the question, 909
Employee health program, scheduled cyclical format, 443
Employment status, burn injury related to, 751
Encephalopathy, after short-term hydrocarbon exposure, 51
Environmental health program, management aspects, eduation, 251
Epidemic, infectious conjunctivitis, microscope transmission, 758
Epoxy resin, contact dermatitis due to, fiberglass binder, 87
Exercise
employer intervention, experimental study, 90
expected outcomes and barriers, reliability and validity, 536
self-reported behavior, measurement validity, 969
Eye injury, welders, incidence and prevention, 1003

F

Farm workers
mass psychogenic illness, statement of independent assessment (letter), 799
occupational health service, Sweden, 767
Fiberglass worker, epoxy resin-associated contact dermatitis, 87
Formaldehyde
lung cancer association, editorial, 885
reanalysis of National Cancer Institute Study, authors' comments, 881

G

Glutaraldehyde
allergic contact dermatitis caused by, hospital maintenance worker, 852
epistaxis caused by, hospital worker, 854

H

Hair care industry, occupational asthma, chromolyn sodium therapy, 112
Hand preference, cumulative trauma disorder of the upper extremity related to, 17
Hand tools, measurement of vibration, weighted and unweighted, 902
Hazardous waste workers, liver injury tests in, obesity role, 238
Headache, bookbinding/screenmaking company, pregnant employee (OM Forum), 422
Health index, retrospective health insurance claims and, 262
Health insurance
claims, source of morbidity data, commentary, 679
retrospective claims, health index relationship, 262
Health surveillance, return-to-work medical clearance data used for, 326
Hearing loss
noise-induced
biochemical and cardiovascular measures, 933
workers' compensation claims, 134
occupational, effect of economic conditions on workers' compensation awards, 653
Heart disease, risk evaluation, occupations affecting public safety, 124
Heat stress, salt balance assessment, field test for, mine workers, 668
Hospital workers
glutaraldehyde exposure
allergic contact dermatitis from, 852
epistaxis caused by, 854
work-related injury, role of hospital-based occupational health physician (OM Forum), 298
Human immunodeficiency virus, postexposure testing, rate, after informed consent, 524
Hydrocarbon, short-term exposure, encephalopathy and vestibulopathy after, 51
Hypersensitivity pneumonitis, pheasant handlers, 473

I

Illness
absenteeism associated with, 792
incidental detection, experienced professionals, 513
Incapacitation, risk, pilot with incidentally detected illness, 513
Industrial workers
cervicobrachial symptoms, relation to work environment, 447
stress and mass psychogenic illness, case study, 243
Infection
fungal, pheasant handlers, 473
ocular, microscope transmission of infectious conjunctivitis, 758, 763
Informed consent, human immunodeficiency virus testing, 524
Injury
compensation, emotional distress, cancerphobia, 427
fatal
location, 674
work-related, alcohol and drug involvement, 23
incidence and cost, industrial population, 781
rehabilitation, life-styles program for, 454
In Memorium, Rafael Penalver (letter), 57
International Labour Organization, reading

asbestos exposure films (OM Forum), 728

J

Jackhammer operator, primary torsion of the omentum in (letter), 563
Job hazards, absenteeism associated with, 792

K

Keyboard operator
  overuse injury
    effect of adjustable workstations, 557
    related to anthropometric dimensions, 747

L

Lead exposure, indoor firing range (letter), 409
Lead titanate zirconate, toxicity, manufacturing plant workers, 986
Letters to the Editor, 55, 200, 279, 409, 490, 563, 631, 693, 798, 868, 938, 1013
Leukemia, mortality, petroleum workers, 106
Litigation, toxic tort, biomedical science role, 997
Liver
  abnormalities, toluene-associated, letters, 1014
  injury test, role of obesity, hazardous waste workers, 238
Lung
  cancer
    chloromethyl ether-associated, chemical workers, 102
    formaldehyde association, editorial, 885
    mortality, Louisiana chemical workers, 32
  injury
    cement dust-associated pulmonary alveolar proteinosis, 233
    dimethyl sulfate poisoning, 141
  occupational disease
    diagnosis, predicate calculus, artificial intelligence, and workers' compensation, 484
    victim compensation, physician role, 335
  pleural changes, variability in radiograph interpretation, 775
Lyme disease, review article, 735
Lymphocyte transformation test, beryllium-specific, identification of subclinical beryllium disease, 603

M

Manufacturing plant workers, lead titanate zirconate exposure, 986
Meat industry, mortality, nonwhite men, 270
Medical clearance data, return-to-work, used for health surveillance, 326
Medical cost, cost-effectiveness of periodical physical examination programs (letters), 693
Mental health, comprehensive program, quality and cost-effective management, 363
Mesothelioma, genesis of (OM Forum), 643
Metal workers, sulfur dioxide exposure, health status and, control study, 347
Metamucil, allergic rhinitis reaction to, nurse, 624
Methyl methacrylate, mortality patterns, exposed men, 41
Microscope, infectious conjunctivitis transmitted by, 758, 763
Military personnel, paternal service in Vietnam, spontaneous abortion risk and, 618
Minerva program, origin, goals, and impact, 919
Mine workers
  black lung disease, cigarette smoking and federal benefits, 98
  heat-stressed, field test for salt balance assessment, 668
  periodic examination, South African (letters), 563
Mood, during worker rehabilitation, effect of life-styles program, 454
Morbidity data, health insurance claims as source of, commentary, 679
Motor vehicle accidents, incidence, nuclear utility workers (letters), 798
Muscle strain, permanency (OM Forum), 731
Musculoskeletal pain, effect of psychosocial work environment, secretaries, 609

N

Nasal septum, perforation, chromate workers (letter), 1013
National Health Interview Survey, 1980, agreement, latest and longest occupation, 339
National Institute for Occupational Safety and Health, field studies, evaluation of notification techniques and communication techniques, 589
Neck, disorder, related to work environment, industrial workers, 447
Neck and shoulder pain, psychologic work variables related to, secretaries, 609
Neurotoxic esposure, physical symptoms after (letters), 410
Noise exposure
  hearing loss related to, biochemical and cardiovascular measures, 933
  workers' compensation claims, 134
Noseclips, pulmonary function testing, 29
Nuclear utility workers, motor vehicle accidents among (letters), 798

O

Obesity, effect on liver injury test, hazardous waste workers, 238
Occupational medicine
  ambulatory health setting, quality assurance programs for (OM Forum), 644
  career options (letters), 279, 631
  field studies, communication of test results, 589
  lawsuits by injured workers, 891
  physician-based surveillance, 929
  physician role, occupational lung disease compensation, 335
  resident training, 897
  status, Nigeria (letter), 938
Occupational Safety and Health Administration, recommendations, pharmaceutical and biomedical industries (OM Forum), 955
Occupational safety program, management aspects, education, 251
Omentum, primary torsion, jackhammer operator (letter), 563
Organic solvents, personality disturbance pattern after exposure to, 743
Outdoor workers, lyme disease risk, 735
Overuse injury, keyboard operators, adjustable workstation training, 557

P

Paper workers, mortality patterns, 627
Passive smoking, x-ray exposure and, pregnant and nonpregnant women (OM Forum), 295
People and Events, 58, 203, 282, 412, 491, 566, 632, 696, 800, 871, 942, 1018
Personality, disturbance patterns, after exposure to organic solvents, 743
Petroleum workers, leukemia mortality, 106
Pew Fellows Conference, corporate perspectives on work site wellness programs, 551
Physical examinations, cost-effectiveness (letters), 693
Plastics industry, pregnant workers, effect on birth weight, 115
Pneumonitis, hypersensitivity, diphenylmethane diisocyanate-related, serologic evaluation, 315
Polypropylene, colorectal cancer screening among exposed workers, outcome assessment, 785
Precision machinery, vision standards for operators, 5 (OM Forum)
Pregnancy
  headache during, bookbinding/screen-making employee (OM), 422
  x-ray exposure during, passive smoking and (OM Forum), 295
Psychogenic illness
  mass
    industrial workers, case study, 243
    variant, agricultural workers, 331
Psyllium, occupational allergic rhinitis reaction, 624
Public health, hazardous chemical effects, information dissemination, 528
Public safety, risk assessment of sudden cardiac incapacitation, 124
Pulmonary function test
  toluene diisocyanate production workers, comparison, current and past potenial exposure levels, 664
  use of noseclips, 29

R

Raynaud's phenomenon, vibration measurement, frequency spectra, weighted and unweighted hand-held tools, 902

Reactive dyes, respiratory allergy and specific immunoglobulin antibodies to, wool workers, 857
Rehabilitation
life-styles program, mood benefits, 454
transitional centers for (OM Forum), 507
Reproduction
abnormalities, Viet Nam war veterans, 618
occupational exposure and, males and females, 974
Respirator load, subjective tolerance, relation to physiologic effects and psychophysical load sensitivity, 681
Rhinitis, allergic, psyllium-associated, nurse, 624

S

Secretaries, neck and shoulder pain, psychosocial work environment and, 609
Selected Reviews from the Literature, 10, 69, 218, 300, 424, 505, 580, 648, 727, 815, 886, 953
correction (letter), 631
Semiconductor industry, spontaneous abortion incidence (letters), 200, 280
Social Security Administration, disability program, occupational differences, 358
Sodium, urinary excretion, heat-stressed mine workers, 668
Steel workers, coke oven intervention program, effectiveness, 464
Stress
industrial workers, case study, 243
reduction program, national survey results, 990
-related illness, predictors, city bus drivers, 657
Styrene monomer, lowered birth weight and, reinforced plastics industry, 115
Suicide, workplace, incidence and potential risk factors, 847
Sulfur dioxide, health status of nickel smelter workers exposed to, comparison, civic laborers, 347

T

Temperature, sensitivity, new measuring methods, construction painters, 320
Tobacco use, vibration white finger disease and, 13
Toluene, hepatotoxicity (letters), 1014
Toluene diisocyanate, pulmonary function tests, comparison, current and past potential exposure levels, 664
Toxic substance, urinary concentrations, new assessment method, 832

U

Upper extremity
cumulative trauma disorders, hand preference and, 17
disorder, related to work environment, industrial workers, 447
Urine, toxic substance concentrations in, new assessment method, 832

V

Vestibulopathy, after short-term hydrocarbon exposure, 51
Vibration
measurement
frequency spectra, weighted and unweighted hand-held tools, 902
weighted versus nonweighted tools, editorial, 909
sensitivity, new measuring methods, construction painters, 320
Vibration white finger disease, tobacco use and, 13
Vinyl chloride, cohort and case-control analyses of exposed workers, 518
Vision, standards for precision machinery operators, 5 (OM Forum)
Visual display terminals, psychosocial aspects and health, 957

W

Welders
encephalopathy and vestibulopathy, after short-term hydrocarbon exposure, 51
peripheral blood lymphocytes, chromosome aberrations, biological sample analysis, 477
Wood dust, nasal cancer and, case-control study, 35
Woodworkers
injuries to carpenters, 687
nasal cancer in, case-control study, 35
nasal cancer incidence (letters), 939
sinonasal cancer among, North America, 899
Wool workers, reactive dye-associated respiratory allergy and immunoglobulin antibodies, 857
Workers' compensation
cost of hearing loss claims, 134
economic conditions related to claims activity, 653
nonspecific back injuries, expenditures for, 919
occupational lung disease, physician role, 335
predicate calculus, artificial intelligence and, 484
treatment outcome, effect of active and completed litigation on, 265
Workplace
absenteeism, illnesses, injuries, and job hazards associated with, 792
AIDS in, responsible intervention, 839
air concentrations, threshold limit values, 910
anthropometric fit, overuse injury and, keyboard operators, 747
cancer awareness and screening program, comparison, participants and nonparticipants, 221
clinical ecology concept, retrospective review, 257
colorectal cancer screening, participation factors, 458
environment, cervicobrachial symptoms related to, 447
exercise program
perceived outcomes and barriers, 536
validity of self-reported exercise behavior, 969
fatal injuries, locations of, 674
hazardous chemical effects, information dissemination, 528
health promotion, scheduled cyclical format, 443
injury
absenteeism associated with, 792
incidence and cost, 781
lawsuits against the occupational physician, 891
intervention, emplyee dietary and exercise practices, 90
occupational and environmental health and safety programs, education in management aspects, 251
peritoneal dialysis in (OM Forum), 217
relaxation training program, ambulatory blood pressure monitoring, 595
safety, coke oven intervention program, steel workers, 464
stress management, national survey results, 990
suicide incidence, victim characteristics and external death cause, 847
therapeutic narcotics, appropriate use (OM Forum), 583
wellness programs, corporate perspectives, 551
Workstation, adjustable, training, keyboard operators, 557

X

X-Ray exposure, passive smoking and, pregnant and nonpregnant women (OM Forum), 295
Xylene substitute, risks, histological laboratory (OM Forum), 202
